

Univa Duo

Univa insulation is available in two fibre compositions: Univa Duo, incorporating special Clo-i fibres, and Univa utilising industry-standard hollow fibres mixed with Clo-i fibres. Both ranges of breathable fabric material are available in multiple weights and varying lofts, providing one of the most versatile models on the market. This versatile insulation model is well suited to the manufacture of outdoor clothing providing a soft hand feel for Univa Duo and a stable option for Univa.

Univa Duo insulation is available in the following weights (gsm): 60, 80, 100, 133, 150, 180 and 200.

Key features

Soft

Warm

High loft

Clo-i fibres

Flexible

Highly breathable

CODE	Weight (gsm)	Warmth Clo Value	Breathability Vapour resistance (Ret)	Metres per roll
S60I2	60	1.65*	7.44*	90
S80I2	80	1.7*	9.92*	50
S100I2	100	2.13*	12.14*	50
S133I2	133	2.83*	16.49*	50
S150I2	150	3.19	18.6	45
S180I2	180	3.83*	22.32*	45
S200I2	200	4.25*	24.80*	35
